## You Are Not Alone...

You may find yourself in a circumstance that feels very overwhelming. You are not alone in whatever challenges you may face. Our caring staff and volunteers are here to walk through this time with you. Many of them have walked through similar situations and have found hope and healing along the way. Our aim is to help the women, men, and families who come through our doors experience that same hope and healing.

When you contact Oasis of Hope, our receptionist will briefly discuss your situation and then set up a free and confidential appointment with a staff member or volunteer. During your first appointment, we will seek to get to know you and your life circumstances a little better. We will also explain our programs and services, and identify which ones you could benefit from the most. We will do our best to answer any questions you may have about Oasis of Hope and help you move forward with our support.
